

Wimbleball Sailing Club - Covid Update 24/2/2022

The Government has replaced legal restrictions with advice which includes:

- Consider wearing a facemask in crowded, enclosed spaces
- Let fresh air in if you meet indoors, or meet outside
- Take a test if you have Covid-19 symptoms and stay at home if your test is positive

While we adjust to living with Covid, please be aware that some people remain anxious in crowded spaces, allow each other space and be kind. If you are unwell or concerned that you may be carrying Covid, please do not attend the club.

Duty teams:

Please

- Ensure adequate ventilation in the club house. Depending on weather conditions etc, open doors and windows.
- Check that soap is available at all wash basins, and hand towels where there is no electric drier
- Clean radios etc as required. Spray and wipes are available.

All members and visitors:

Clubhouse facilities are open. You are welcome to use these, or you may prefer to change into sailing kit before leaving home or in the car park.

Hand sanitiser may not always be available, so consider bringing your own.

If you have any questions or concerns, please talk to the Duty Team Leader, another member of the duty team or a committee member.
